

Michigan Supreme Court
Supreme Court Clerk
PO Box 30052
Lansing, Mich. 48909

Dear Sir:

This letter is in response to Court Rule No. 2003-47. Changes are being petitioned by the law firm of Dickerson & Wright of Detroit, Michigan on behalf of certain michigan business.

I must remind you that courts are to interperet law not make them. I live in constant dread that, because I have asbestos in my lungs, that I too could get scik and die suddenly. I have read in the newspapers of cases just like that. I have had many instances of colds and flues over the years and each one has had the potential of asbestosis flareing up.

The facts are that business and companies are trying to escape that responsibilities for using a product that caused harm to workers just like me who inocently used the product and was not warned of any consequences. Only one (1) case has ever had a jury trial, the rst has been settled out of court. I dot not want that right taken from me because of the asbestos in my lungs.

Sincerely yours,

Edward L. Grove
